"It's been a great learning experience. Its more than a school, it's a community of great students and classes that make you feel at home."

"Sometimes I wonder how much patience my teacher has, because he never gets upset or loses control. In his place, I would scream all the time if some kid would ask me to explain something again and again. My teacher is funny, relaxed, calm and it's a pleasure to go to my class everytime and talk to my classmates"
